RESTORATIVES

complex b liquid

composition

Vitamin B ₁	10 g
Vitamin B ₂	10 g
Vitamin B ₆	12 g
Vitamin B ₁₂	20 mg
Vitamin K ₃	7 g
Excipient c.s.p.	1 000 cc

indications for use

Suitable as a metabolic tonic after infectious processes or nutritional deficiencies.

General stimulant of production. Anti-stress. Condition of debility. Dehydration.

complex b is a compound of essential vitamins for the development of tissue and for health, growth and animal maintenance.

It contains organic principles that are essential to achieve optimum production levels, and from a therapeutic point of view, in specific deficiency syndromes, during convalescence and conditions of debility.

Group B vitamins are considered “growth factors” stimulating appetite and preventing anemic conditions.

animal species

All animal species.

use level

It is administered orally, in drinking water at the dose of 0,5 - 1 cc /litre of water.

Health

Hygiene

Production

standard packaging

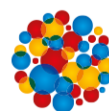

1 and 5 litres bottle.

withdraw

None.

remarks

This compound has no contraindications. It has no known incompatibilities; no adverse effects have been reported.
